Information Seminar

SCORE - Sustainable CONstruction in Rural and fragile areas for Energy efficiency

Rhodes, Wednesday 4 April 2012

Host Partner: GREECE -Development Agency of South Aegean Region

«READ S.A.»

The Development Agency of South Aegean Region «READ S.A.», within the framework of the project “SCORE: Sustainable CONstruction in Rural and fragile areas for Energy efficiency”, organized a one-day event in Rhodes on the 4th of April 2012.

The Project, co-financed by the European Regional Development Fund and National Funds, aims at supporting the implementation of sustainable energy policies in the construction sector in fragile coastal and rural areas of the Mediterranean.

In the morning of the 4th of April, an information seminar on SCORE project took place, where competent local stakeholders from public organizations, such as the Municipality of Rhodes, the Region of South Aegean and the local Chambers were invited. At the beginning of the seminar, the host partner informed the participants about the project giving an extensive description of its concept, main activities and expected outputs.

After the presentation, the President of «READ S.A.», Mrs. Litsa Ftaklaki, gave an interview to local journalists underlining the importance of the project's implementation for the Region of South Aegean. Local TV channels also recorded footage from the seminar, which was broadcasted later that day.
